

## GXM Mixing Rods

Static GXM mixing rods with X-Grid mixing structure with different diameters and number of mixing elements.

High performance mixers for difficult mixing applications with large differences in concentration, viscosity and temperature.

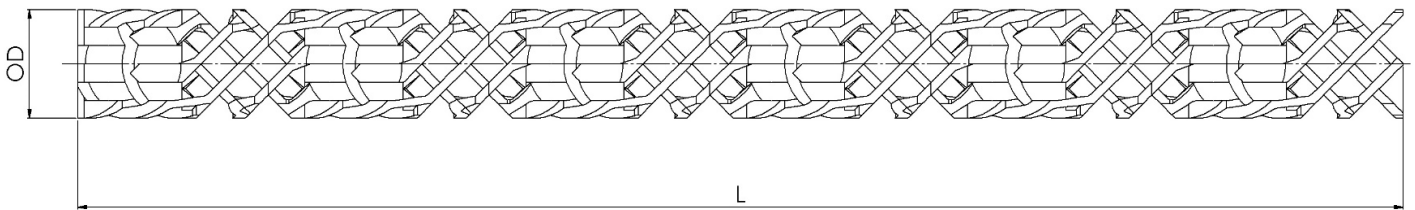

Best mixing result over shortest distance

Stamixco patented mixing structure for best mixing performance and mechanical stability.

### Technical Data

Material: Stainless steel 316L

Article	Number of mixing elements	OD (mm)	L (mm)
GXM-6-8-AM	8	6	48
GXM-6-12-AM	12	6	72
GXM-6-16-AM	16	6	96
GXM-8-8-AM	8	8	64
GXM-8-12-AM	12	8	96
GXM-8-16-AM	16	8	128
GXM-10-8-AM	8	10	80
GXM-10-12-AM	12	10	120
GXM-10-16-AM	16	10	160
GXM-12-8-AM	8	12	96
GXM-12-12-AM	12	12	144
GXM-15.8-8-AM	8	15.8	126.4

All of the above mixing rods are available from stock. Please contact us for special diameters, materials or different numbers of mixing elements.
